   — Version Update Automation Using Scripting Language Bash

Web Application Security Course, Clarified Security, May 2016

Rapid Software Testing Course, Satisfice, Inc., September 2011

ISEB ISTQB Foundation Certificate in Software Testing, August 2010

Agnes Karlson

English

Former CEO in Tartu University Hospital Children's Foundation, January 2017

Irina Ivanova was a volunteer in Tartu University Hospital Children's Foundation from 2013 to 2014.

Irina helped with all day-to-day IT related issues in the organization, but her greatest project was to create platform and prototype for the new homepage according to the visuals provided by creative agency.

I am very thankful to Irina for all her time, that she was ready to contribute in the idea to evolve IT area of one of the largest children's oriented foundation in Estonia!

If all people would do voluntary work with such commitment as Irina did, then charitable organizations would evolve as common successful organizations!

———————————————

Estonian (Original)

Endine tegevjuht Tartu Ülikooli Kliinikumi Lastefondis, jaanuar 2017

Irina Ivanova oli vabatahtlik 2013-2014 Tartu Ülikooli Kliinikumi Lastefondis, sel perioodil olin seal tegevjuht.

Irina aitas kõigi IT alaste jooksvate küsimustega fondis, aga suurimaks projektiks oli uue kodulehe platvormi ja prototüübi loomine 2013. aastal vastavalt loovagentuuri visuaalidele.

Ma olen väga tänulik Irinale, et ta oli nõus nii palju oma aega panustama sellele, et arendada ühe Eesti mõjukama lastele suunatud heategevusorganisatsiooni IT ala!

Kui kõik inimesed teeksid vabatahtlikku tööd sama suure pühendumisega, nagu Irina seda tegi, siis töötaksid heategevusorganisatsioonid nagu täiesti tavalised edukad ettevõtted!

Küllike Saar

English

CEO in Tartu University Hospital Children's Foundation, February 2017

Irina was very responsible and agile volunteer. Under her guidance a lot of IT related issues have been solved. Additionally she had high motivation and was very creative and flexible in her actions. Irina is definitely valuable employee.

Tegevjuht Tartu Ülikooli Kliinikumi Lastefondis, veebruar 2017

Irina oli väga kohusetundlik ja kiire tegutsemisega vabatahtlik. Tema eestvedamisel said paljud IT-alased probleemkohad lahenduse. Lisaks oli tal kõrge motivatsioon ning oma tegemistes oli ta väga loov ning samas ka paindlik/muutustega kohanev. Irina on kindlasti väärtuslik töötaja.

Helena Jeret-Mäe

English

Former Head of Testing at Nortal, September 2017

Irina is a professional software tester in the best sense of the word. She is continuously developing and broadening her knowledge in testing and technology which makes her an invaluable team member and leader in her own right. Irina is willing to take the time and make the effort to learn new skills, and pass this knowledge on in a team setting or by publishing a blog post. With her calm attitude and considerable technical savvy, she's the one to work with in building quality software.

Jarno Raid

English

Account Manager at Nortal, November 2017

Irina is always up to practice new technologies and gadgets or create something on her own in order to improve results and make life easier. Curiosity going hand in hand with ultimate correctness and ability to dig into the depths most testers wouldn't dare to dream of makes her unique.
